focus provides adult social work to the people of North East Lincolnshire.

What is Social Work?

Social work is any form of help delivered by a social work professional with the aim of alleviating the conditions of those in need of help or welfare.

Its aim is to help all people to develop their full potential, enrich their lives, and prevent suffering or harm.

“ Within focus we recognise and value the way in which our service users are becoming more empowered to be ‘consumers’ of care and support. Our work practice actively embraces the increasing emphasis on an individual’s right to choice and control. This is an exciting time to be part of a new organisation with a fresh outlook to social work. ”
